

# WELDING TIG-200P AC/DC

## IGBT pulse AC/DC TIG welder

### Process:

TIG(GTAW)  
Pulsed TIG(GTAW-P)  
Stick (SMAW)

### Standard unit includes:

- Digital amp meter
- Industrial power cord (10ft) and plug
- Work cable with clamp
- Industrial standard TIG gun, 16ft

### Option:

- Remote foot control pedal with cord length of 25ft (Order No. 07002305)

*Superior Aluminum welding!*

**WELDING TIG-200P AC/DC** is a pulsed TIG welder based in IGBT inverter technology. It is designed for welding steel, stainless steel and Aluminium in sophisticated fabrication or critical maintenance work.

The pulse TIG-200P AC/DC comes standard with hi-end features like HF start, pulse, current up/down slope timing, gas pre-flow and post-flow, make delicate faultless weld seam a easy job.

The pulse TIG-200P AC/DC can also weld stick electrodes up to 5mm(1/5 in) with a stable arc and easy starting.

**Rugged design** as well as four wheels

in the bottom of the TIG-200P AC/DC is ideal for harsh environment, both in shop and outdoor.

**WELDING TIG-200P AC/DC**, your right choice for the success of your business!

### SPECIFICATIONS

Model	Tig 200P AC/DC
Power supply	180v-265v self adaptable/60Hz
Phase	1
Rated input(KvA)	5.3
Open circuit voltage(V)	75
Amperage range(A) AC	20-200
DC	5-180
Duty cycle (%)	60% at 200A
Current down slope time(s)	0-2
Gas pre-flow time(s)	0.2
Gas post-flow time(s)	0-5
Dimension(HxWxD)(CM)	47X27X48
Weight(KG)	28

**3 YEAR WARRANTY** READ THE WARRANTY POLICY IN THE MANUAL FOR DETAILS
